

# 1/4" Drive Torque Screwdriver

## HT611

### Features

- Torque & Rotation : 0.88–17.7 IN-LB range; clockwise/counterclockwise operation.
- Presets & Memory : 9 pre-sets; stores up to 50 readings.
- Buzzer and LED Indicator Alert.
- Torque Range: 0.88"-17.7"-LB.
- Supplied with storage case.
- Battery AAA\*2

This Bison Life 1/4" drive torque screwdriver offers precise fastening with a scale ranging from 0.88 to 17.70 in-lb, ensuring accuracy for various tasks. It provides both clockwise and counterclockwise operation with an audible click for reliable torque application. The tool features a replaceable bit and includes a calibration certificate, guaranteeing dependable performance for your demanding needs. Its straight handle design offers comfortable use and control.

### Product Specification

Size	Drive Size: 1/4 In
	Torque Range: 0.88 to 17.70 In-LB
	Overall Length: 8 In
Weight	26.45 Oz
Material	Chrome Vanadium Steel (Housing)
	Rubber (Handle)
	Alloy Steel (Shank)
Packaging Style	Plastic Box
Color	Red and Black

### Packaging Information

1 Piece / Plastic Box
8 Plastic Boxes / Carton
Carton Size- 14.3 x 10.4 x 11 in
Carton Weight- 14.5 Lbs

### SKU Information

Product SKU	Inner pack UPC	Carton GTIN
BLMS-DRTQSCDR-1	810188146830	00810188146847

### Applications

- Ideal for precision assembly in electronics, instrumentation, and control panels.
- Used in automotive and aerospace work where accurate torque settings are critical.
- Suitable for maintenance and repair of mechanical or electrical components.
- Helps ensure consistent fastening in manufacturing and production lines.
- Useful in laboratories or quality control environments requiring calibrated torque accuracy.
- Perfect for delicate equipment or small fasteners that can be damaged by over-tightening.
